mattgunther@metroelec.net**

**Dale Morris, Pro  
Dalemorris9184@outlook.com**

**Brad Browder, Secretary  
browder7.brad@gmail.com**

## Around the Golf Course

As we embrace the arrival of spring, our commitment to providing exceptional playing conditions remains steadfast. Here's an overview of our maintenance activities and upcoming events for April 2025.

### **Course Maintenance Schedule**

To ensure optimal course conditions, our maintenance team will undertake the following activities:

- Approach Topdressing: Mid-April will see light topdressing of approach areas to improve playability and turf health.

### **Disruptions will be minimal**

- Irrigation System Inspection & Upgrades: Ongoing throughout the month to ensure efficient water management as temperatures rise. Additionally, we will be replacing the pressure maintenance pump on the course irrigation system to enhance water distribution.
- Fertilization of Rough & Fairways: Over the next few weeks, we will be applying fertilizer to the rough and fairways to promote healthy growth and maintain excellent playing surfaces.
- Walk Mowing Greens: We will begin walk mowing greens 5, 6, and 11, as well as all cleanup laps, to help improve turf conditions and the overall health of the greens.
- Maintenance Facility Renovations: We are continuing renovations on our maintenance facility to improve efficiency and enhance our ability to care for the course.

### **Bermuda Grass Transition**

As temperatures rise, the Bermuda grass on the fairways and rough is just beginning to come out of dormancy. This transition period can result in uneven growth and some thinning in certain areas. With the upcoming fertilization and continued warm weather, we expect the turf to fill in and improve over the next few weeks. We appreciate your patience as the grass fully wakes up for the season.

*-Ed Walker, Superintendent*

---

### **2025 Berkeley 2-Man Tournament**

(on our Facebook there is a link not sure if you can add this link where they can click on it to sign up)
